4. Recommendations	5
5. Conclusion	5
6. Bugs List	5-6
7. Bugs Report	6

1. Purpose

This document presents findings referring to the tests done on the website of the "Dominos Pizza" chain in Israel.

The tests were carried out on the main functions of the site, which refer to operations such as: navigation and displaying the menu, placing an order, registering on the site, using various features, reading information about the restaurant, etc.

2. Application Overview

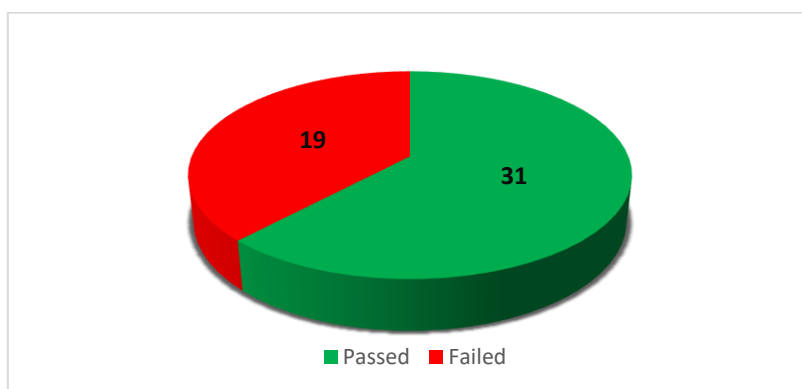

The website of "Dominos Pizza" is mainly used as a Web and Mobile website to display the chain's menu and allows you to place orders from the menu by delivery or by self-pickup.

3. Metrics

Test Cases - Status

Passed	Failed	Not Run	Total
31	19	0	50

TEST CASES STATUS

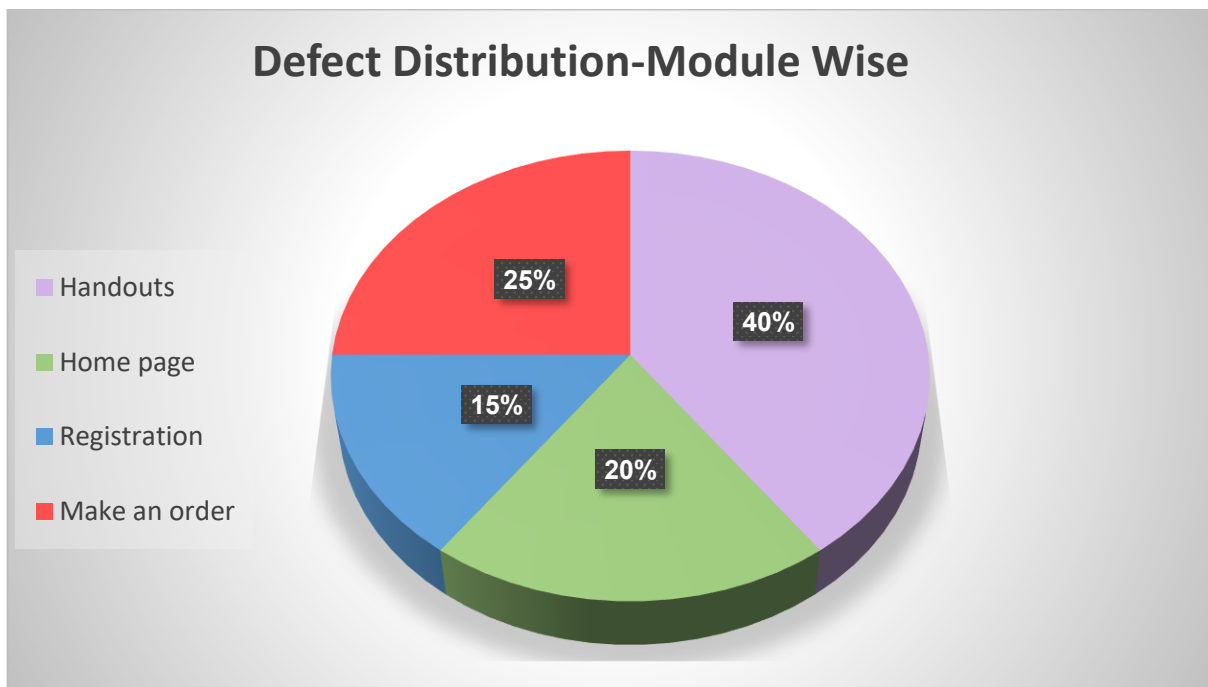

Severity Bugs - Status

S1 - Show Stopper	S2 - Critical	S3 - Major	S4 - Minor	S5 - Low	Total
0	3	15	2	0	20

Defect Distribution - Module Wise

	Make an order	Registration	Home page	Handouts	Total
S1 - Show Stopper	0	0	0	0	0
S2 - Critical	0	3	0	0	3
S3 - Major	5	0	2	8	15
S4 - Minor	0	0	2	0	2
S5 - Low	0	0	0	0	0
Total	5	3	4	8	20

Defect Distribution-Module Wise

4. Recommendations

1. To have the option of viewing the menu even for those who are not registered on the website.
2. Improve accessibility (lots of bugs affecting the site).
3. That the top menus of the website be displayed on all website pages.
For example: on the "requested" page the menu is not displayed.
4. That the main menu on the home page will not move when scrolling on the main page.

5. Conclusion

Following the various tests done on the "Dominos Pizza" website, quite a few bugs were found. Most of them have a degree of severity between Minor and Critical . So, despite the relatively large amount of bugs, the website still functions reasonably well and performs its main functions, which are viewing the restaurant menu and ordering delivery to the customer's home/self-collection.

As a result, I recommended releasing the site.

6. Bugs List

[DW-1] It is not possible to register on the site

[DW-2] It is not possible to reset a password through an email gives an error message

[DW-3] It is not possible to reset a password through a phone number gives an error message
